This Year

ROUND 0

Qualification Round

1. Title / Synopsis will be evaluated and result will be sent via email as **Accepted** / **On-Hold** to primary email provided during registration
2. **Accepted:** Follow instruction in email and join Google Classroom.
3. **On-Hold:** Follow instruction in email and re-submit Tile/Synopsis before deadline.
4. Re-submitted Tile/Synopsis shall be evaluated again. You will receive the results via email.

Accepted Email

SIFQATAR

Qatar Children Science Congress (QCSC) 2025-26. Round-0 Results.

Dear Team,

We are happy to announce that the Title/Synopsis was **ACCEPTED** to participation in QCSC 2025-26.

Round 1 is via Google Classroom. Use the link below to join your respective Google Classroom.

Announce something to your class

SIF Qatar posted a new assignment: QCSC Report Round 1
Yesterday (Edited Yesterday)

English (United States) ▼

[Help](#) [Privacy](#) [Terms](#)

How to submit report

The screenshot shows a Canvas LMS interface for a classroom named "Mock-Promoting pre...". The "Classwork" tab is selected, displaying a "View your work" link and a "Topic filter" dropdown set to "All topics". Under the heading "Round 1", a submission entry "QCSC Report Round 1" is highlighted with a red rectangle. The entry includes a document icon, the title "QCSC Report Round 1", a due date of "Due 10 Nov, 23:59", and a three-dot menu icon.

How to Submit Report

The screenshot displays the Google Classroom interface for a class named "Mock-Promoting pre...". The main assignment is titled "QCSC Report Round 1" by "SIF Qatar", with a due date of "10 Nov, 23:59". The assignment instructions state: "Please follow the attached reference file and submit your report in the same format before due date." and "Please note Submission are not accepted after due date." A thumbnail of a "Report Template.pdf" is shown. Below the assignment, there is a "Class comments" section with a link to "Add a class comment". A large green arrow points to this link. On the right side, the "Your work" sidebar is open, showing options to "Add or create" new work. The "File" option is highlighted with a red box. Other options include "Google Drive", "Link", "Create new" (with sub-options: Docs, Slides, Sheets, Drawings, Vids), and a "New" button.

Round 1

Team Leader

Name:

QID:

Team Member

Name:

QID:

Guide Teacher

Name:

PROJECT TITLE

1. INTRODUCTION:

Description on background of the study and its relevance to the focal theme, rationale and social context.

2. HYPOTHESIS:

To be written clearly in one or two sentences.

3. OBJECTIVE(S):

To be written clearly point by point, not as running statement (not more than five points).

4. METHODOLOGY/EXPERIMENTATION:

Explain in detail about the experiment or methods.

Explain list of materials used and controls.

Provide neatly labeled sketches and/or diagram wherever necessary, document every step of the study by taking photograph, wherever necessary.

4.1 SURVEY: (IF ANY)

Clearly describe sampling procedure and sample size based on population, provide sample questionnaire used, document every step of the work by taking photograph whenever necessary.

4.2 CASE STUDY: (IF ANY)

This is a specific study carried out focusing on a particular area/ community to understand certain issues or their impact (In such cases, principles of survey will remain same, with explanation in context of the area/community covered, along with significant learning outcomes apart from the other processes of data analysis and interpretation).

Round 2

PROJECT TITLE

1. INTRODUCTION:

Description on background of the study and its relevance to the focal theme, rationale and social context.

2. HYPOTHESIS:

To be written clearly in one or two sentences.

3. OBJECTIVE(S):

To be written clearly point by point, not as running statement (not more than five points).

4. METHODOLOGY/EXPERIMENTATION:

Explain in detail about the experiment or methods.

Explain list of materials used and controls.

Provide neatly labeled sketches and/or diagram wherever necessary, document every step of the study by taking photograph, wherever necessary.

4.1 SURVEY: (IF ANY)

Clearly describe sampling procedure and sample size based on population, provide sample questionnaire used, document every step of the work by taking photograph whenever necessary.

4.2 CASE STUDY: (IF ANY)

This is a specific study carried out focusing on a particular area/ community to understand certain issues or their impact (In such cases, principles of survey will remain same, with explanation in context of the area/community covered, along with significant learning outcomes apart from the other processes of data analysis and interpretation).

5. DATA COLLECTION:

This refers to what has been observed during the experimentation

Observation can be both qualitative as well as quantitative

The qualitative data needs to be transformed into quantitative form either using ranking approach or weighted index for numerical analysis

6. DATA ANALYSIS AND INTERPRETATION:

The data that has been generated out of experiments/observations/survey need to be tabulated in a structured manner

Different tools and methods can be used to analyze the data, to understand the patterns that emerge from it, to get results and finally draw conclusions

(Remember, the raw data that is generated is not the final result. Raw data is to be analyzed using simple statistical methods/tools and then the interpretation of the result to be made)

7. RESULTS:

Results are the output of the study derived from data analysis and interpretation leading to meaningful outcomes with the help of a logical framework

Sometimes, it may be needed to redo the experiments to get consistent results, however, final result is the analyzed data presented in structured table as well as graphical form

7.1 CONCLUSION/INFERENCE: This is the logical end of the project where the experimenter tries to arrive at specific conclusions from the result(s)

(In a way, the whole objective of the project was to arrive at some conclusion, either positive or negative, which would lead to a better understanding of the problem)

7.2 SOLUTION TO THE PROBLEM: Once the problem is understood using the above steps, it may lead to one or more possible solutions

8. FUTURE SCOPE OF THE WORK (FOLLOW-UP):

Every research is open-ended

(In other words, in a defined time-period and with given resources, a research work cannot end-up to draw solution to that particular problem, which may need further refinement for suitable and wide application and hence, every research work must have some scope to do the same or similar study by the same researcher or other as and when necessity arises)

9. ACKNOWLEDGEMENT:

It is the duty of a researcher to acknowledge all the people who extended help in various forms for accomplishing the work, with a generous statement of gratitude

10. REFERENCES/BIBLIOGRAPHY:

This part includes the list of books, journals, magazines, articles consulted in relation to the project

(If these are referred to in the write-up of the project, then it is termed as reference; else it is bibliography/ literature cited)

On-Hold Email

SIFQATAR

Qatar Children Science Congress (QCSC) 2025-26. Round-0 Results.

Dear Team,

Title/Synopsis submitted was **ON-HOLD** for participation in QCSC 2025-26. We feel it is not competitive enough.

We are happy to provide another chance to rework/improve and re-submit your Title/Synopsis **before the deadline**. You are allowed to change your sub-theme if you feel necessary.

Use the link below to re-submit. **Please note you can submit only once.**

<https://sifqatar.com/qcsc-re-submit/>

Your submission shall be evaluated again. Final results for Round 0 will be emailed.

ROUND 1

Feedback Round

1. **Join Google Classroom.**
Follow instruction in your email.
2. **Submit Round 1 report** as per template before deadline.
3. **Receive feedback** via Zoom or a Face-Face meeting
4. No Elimination in this round

ROUND 2

Elimination Round

1. In the same Google Classroom **submit Round 2 report** before deadline.
2. You will attend **Face-Face meeting**. Dates please check our website.
3. **Finalist: Wait for results to be announced.**
4. Results will be announced via Email/WhatsApp/Website.

THE FINALS[®]

1. The qualified teams shall present their completed projects for Face-Face evaluation
2. The teams should carry their project report in the format as mentioned in the 'QCSC Report Template'.
3. Functional projects should be in working condition. Non functional project must have a complete model.
4. Winner shall be selected.

PROJECT REPORT STRUCTURE

The word limit for the written report should not exceed 2500 - 3500

1. INTRODUCTION:

Description on background of the study and its relevance to the focal theme, rationale and social context

2. HYPOTHESIS:

To be written clearly in one or two sentences

3. OBJECTIVE(S):

To be written clearly point by point, not as running statement (not more than five points)

4. METHODOLOGY/EXPERIMENTATION:

Explain in detail about the experiment or methods.

Explain list of materials used and controls

Provide neatly labeled sketches and/or diagram wherever necessary, document every step of the study by taking photograph, wherever necessary.

4.1 SURVEY: (IF ANY)

Clearly describe sampling procedure and sample size based on population, provide sample questionnaire used, document every step of the work by taking photograph whenever necessary

4.2 CASE STUDY: (IF ANY)

This is a specific study carried out focusing on a particular area/ community to understand certain issues or their impact (In such cases, principles of survey will remain same, with explanation in context of the area/community covered, along with significant learning outcomes apart from the other processes of data analysis and interpretation)

5. DATA COLLECTION:

This refers to what has been observed during the experimentation

Observation can be both qualitative as well as quantitative

The qualitative data needs to be transformed into quantitative form either using ranking approach or weighted index for numerical analysis

6. DATA ANALYSIS AND INTERPRETATION:

The data that has been generated out of experiments/observations/survey need to be tabulated in a structured manner

Different tools and methods can be used to analyze the data, to understand the patterns that emerge from it, to get results and finally draw conclusions

(Remember, the raw data that is generated is not the final result. Raw data is to be analyzed using simple statistical methods/tools and then the interpretation of the result to be made)

7. RESULTS:

Results are the output of the study derived from data analysis and interpretation leading to meaningful outcomes with the help of a logical framework

Sometimes, it may be needed to redo the experiments to get consistent results, however, final result is the analyzed data presented in structured table as well as graphical form

7.1 CONCLUSION/INFERENCE: *This is the logical end of the project where the experimenter tries to arrive at specific conclusions from the result(s)*

(In a way, the whole objective of the project was to arrive at some conclusion, either positive or negative, which would lead to a better understanding of the problem)

7.2 SOLUTION TO THE PROBLEM: *Once the problem is understood using the above steps, it may lead to one or more possible solutions*

8. FUTURE SCOPE OF THE WORK (FOLLOW-UP):

Every research is open-ended

(In other words, in a defined time-period and with given resources, a research work cannot end-up to draw solution to that particular problem, which may need further refinement for suitable and wide application and hence, every research work must have some scope to do the same or similar study by the same researcher or other as and when necessity arises)

9. ACKNOWLEDGEMENT:

It is the duty of a researcher to acknowledge all the people who extended help in various forms for accomplishing the work, with a generous statement of gratitude

10. REFERENCES/BIBLIOGRAPHY:

This part includes the list of books, journals, magazines, articles consulted in relation to the project

(If these are referred to in the write-up of the project, then it is termed as reference; else it is bibliography/ literature cited)
